

**Dear Ice Cream Buyer,**

Beckon Ice Cream is currently in Whole Foods and Sprouts nationwide and other select retailers, but I have been dying to be able to buy them at your store!

Beckon is a premium lactose-free ice cream that is clean label, extremely delicious, female-founded, and comes in a variety of feel-good flavors. With 25% of the population being lactose-free, this is a no-brainer product to carry that caters both to the lactose-free community as well as all ice cream lovers looking for something more gut-friendly.

Please help us all reach our #IceCreamGoals by making Beckon available at your store. All the info is below! It's beckoning you...

**Sincerely,**

Customer name
